The sign of our times!

FirstSiouxFalls

The First National Bank in Sioux Falls

When money can help make things grow...

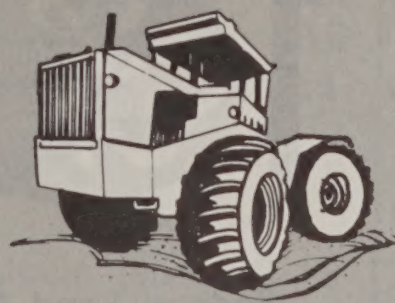

We're with you.

The National Bank of South Dakota puts more money to work in agriculture than any other bank in the midwest. We make loans for livestock, feed and seed, new equipment, and operating capital. Anything that helps to make agriculture strong, and helps to make ranchers and farmers prosperous.

Our 16 statewide offices work with agri-businessmen throughout South Dakota. Come in and talk it over. Wherever you are in South Dakota, when you need money to grow on . . . We're with you.

TERMS AND CONDITIONS

The Sioux Falls Chamber of Commerce, solely in the interest of improving quality and increasing livestock numbers in the Sioux Empire area, takes pride in presenting this offering of QUALITY PUREBRED LIVESTOCK.

Through the cooperation of the respective breed associations, every effort has been made to produce only such consignments that are a credit to their association.

The terms and conditions under which this sale will be conducted are as follows:

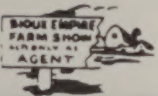

1. Each animal will be sold without reservation to the highest bidder.

2. Buyers will assume all risk on animals as soon as they are declared sold.

3. The auctioneer will settle all disputes as to bids.

4. The Sioux Empire Farm Show acts only as agent for the several consignors in this sale and does not assume any responsibility of the animal's future usefulness. If an adjustment needs to be made, it must be made between the purchaser and the consignor.

5. Any change in breeding date will be announced sale day.

6. Terms of every sale are cash. Settlement to be made with the sale clerk, at the time of sale unless special arrangements are made with the clerk.

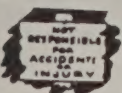

7. Every consignment must conform with existing state sanitation regulations. All necessary health certificates will be issued.

8. Mail bids will be accepted by the Breed Superintendents.

9. During sale week, telephone bids will be accepted at the sale arena, phone number 605/332-2078 (Expo Building).

10. Every precaution will be exercised for the safety and welfare of those attending the sale. However, the Sioux Empire Farm Show, the management or anyone helping with the sale assumes no responsibility for accident or injury.

The Banks of Sioux Falls are cooperating in the Clerking.

Your business partner

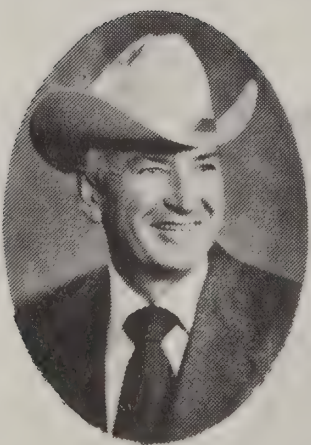

working for you

The Dakota Farmer is continually striving to give you more and better service. We have enlarged our livestock field staff and brought you a wealth of practical experience through some of the most respected men in the livestock industry today.

Frank, Ted and John are ready at anytime to consult with you in all areas including breeding programs, herd and range management, merchandising methods and/or sale management. Their combined knowledge and experience is unequalled in the North Plains region. Put them to work for you. Anytime you have a question or problems arise, give anyone of these men a call, they will be more than glad to give any assistance they or our total organization can provide.

Service to our customers and readers has always been of primary importance to THE DAKOTA FARMER. Together, we can increase your profit potential while contributing to a better and stronger livestock industry.

The Simmental Story

The Simmental breed originated in Simme Valley, Switzerland. While the breed is very old, it was not introduced into North America until 1967.

The Simmental was first developed as a dual-purpose breed. They are rugged, sound cattle, combining meat and milking ability. They are generally red and white spotted, although some are relatively solid in color. Mature bulls average about 2,300 to 2,400 pounds and cows about 1,600 to 1,700 pounds.

Size and weight gains of F1 Simmental crossbreds in North America have been considerably in excess of most of the straightbred domestic cattle with which they have been compared. This indicates that the breed is contributing increased growth, other than evidenced by heterosis alone. The milk production of F1 females is showing improvement over domestic beef breed levels.

SUGGESTED SALE TERMS AND CONDITIONS AMERICAN ANGUS ASSOCIATION June 16, 1975

BIDDING

1. Each animal will be sold to the highest bidder without reserve. The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS

1. Terms of sale are cash unless satisfactory credit arrangements have been made with vendor previous to sale.

PURCHASER'S RISK

1. Each animal becomes the risk of the purchaser as soon as sold; but it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of (48) hours after the sale, whichever occurs sooner.

CERTIFICATE OF REGISTRY

1. A transferred certificate of registry will be furnished to the purchaser for each animal within (45) days following date of sale.

HEALTH

1. All animals are eligible for interstate shipment; except as otherwise announced. Interstate health papers will be furnished for each animal requiring T.B. and Bangs tests in accordance with Federal Regulations. A certificate of vaccination will be furnished for each animal that has been vaccinated for Bangs disease.

A.I. SERVICE CERTIFICATES

1. A.I. Service Certificates shall be furnished by the seller, at no cost to the buyer, for all females bred artificially to bulls not owned by the seller.

ANNOUNCEMENTS

1. Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

BREEDING GUARANTEE

1. All animals are guaranteed to be breeders, with the exception of: a) Calves under twelve months of age; b) Animals shown by purchaser after sale (in cases of animals shown after purchase the breeding guarantees, if any, shall be such as agreed upon between the seller and the buyer; c) injury or disease occurring after sale; d) Gross negligence or willful misconduct on the part of the purchaser.

2. **Bulls** are guaranteed breeders if not allowed to run with the herd until at least 18 months of age. Any bull which either 1) settles 1/3 or more of the healthy cows he serves; 2) is the sire of 20 or more animals; or 3) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month period of trial (provided for in paragraph 2 of the section of these sale terms and conditions entitled 'Option and Privilege of Return and Adjustment') shall be considered a breeder. Any guarantees with respect to the ability to freeze semen shall be by separate agreement between the buyer and seller.

3. **Safe in Calf Females** have been examined by a competent veterinarian and are so guaranteed.

4. **Served Females** are believed to be in calf but are not so guaranteed.

5. **Pasture-bred females** have been exposed but are not guaranteed to be in calf.

6. **Open females** have not been served and are so guaranteed.

IDENTIFICATION

1. Each animal sold shall have a readable tattoo corresponding to its registration.

2. In those cases where a nickname is used, it shall be accompanied by the official registered name and number of the animal.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT

1. All claims for adjustment or refund must be made in writing either within six months of the sale date or no later than six months after the animal reaches 18 months of age, with the exception of claims involving dwarfs or misrepresentation of service sire.

2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the seller if in good condition and complying with the health requirements of the seller's state. The seller shall be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal a breeder, the seller shall, at the option of the buyer, replace the animal with another of equal value or refund the purchase price. The return of the full purchase price, shall in any case be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the purchaser, except that the seller shall be responsible for transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation.

3. If a female sold as "safe in calf" proves not to be in calf, the purchaser may receive service from the bull previously used, if available, or if the bull is not available, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any adjustment provided for herein shall absolve the seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe in calf" at time of sale to a certain bull proves to have been bred to a different bull, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller (adjustments shall not be considered to be a breeding fee or an allocation of the purchase price to any unborn calf). Any expense incurred for transportation shall be the responsibility of the purchaser, except that the seller shall be responsible for transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place.

4. If a female sold as "served" proves not to be in calf, the purchaser may obtain service from the bull previously used, or if not available, then the purchaser may obtain service from any other bull owned by the seller. Any expense incurred for this service shall be agreed upon between purchaser and seller.

5. If a female sold as "pasture-bred" proves not to be in calf, the purchaser may return such female to the farm of the seller at the purchaser's expense to be served to the bull previously used, if available, or to any other bull made available by the seller that is acceptable to the purchaser.

6. If a female sold as "open" proves to be with calf, the purchaser may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the purchaser. It shall be the obligation of the seller to bear any expense incurred for transportation.

RIGHTS AND OBLIGATIONS

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

2. Neither the (Name of Sponsoring) Association, the sale manager, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

DWARFISM GUARANTEE

1. All animals are guaranteed not to produce a dwarf calf for a period of two years following date of sale. This guarantee is effective only under the following conditions:

a. The buyer shall notify the seller in writing immediately upon the birth of a calf suspected of being a dwarf or immediately after determination is made that such calf is a dwarf.

b. The seller shall be permitted, and provided with reasonable opportunity, to obtain blood samples of an alleged dwarf calf and its sire and dam for the purpose of blood type analysis to establish parenthood.

c. The animal will be returned by the buyer to the seller at the buyer's expense; provided the animal meets the health requirements of the seller's state.

d. The return of the purchase price in connection with a dwarf producing animal shall be deemed full satisfaction and settlement.

2. In the event that there is a dispute as to whether or not a calf is a dwarf, the 'Determination' referred to in paragraph 1, a) above shall be made by a person or persons acceptable to both the buyer and seller, and in the event that the buyer and seller cannot agree on the selection of such person or persons then each of them shall appoint a representative to make the determination. In the event that such representatives fail to agree a third person selected by the representatives of the buyer and seller shall make the determination.

PARTIAL OWNERSHIP BULLS

1. Partial ownership interest bulls sold in this sale may be subject to a formalized joint ownership agreement between the parties. These agreements cover such subjects as rights of possession, the collection, storage and division of semen, the disposition of owners interest and other related matters. Information relating to the agreements, in addition to what is covered in the footnotes, may be obtained from the seller. @

This bull is just as the name implies. He is the top bull from our 1976 crop. A very rugged correct individual. This is a herd bull for any cow herd. Note his performance: 205 day wt., 616; index ratio, 130; His mother has the highest breeding value in our herd 113. We used a full brother on some cows last summer, also another full brother is in a registered herd. Don't miss this bull.

SALE MANAGER'S COMMENTS . . .

South Dakota and surrounding area Limousin breeders have again thrown open their gates and consigned their best to the 1977 South Dakota Limousin Association's Red Carpet Sale. The Red Carpet Sale has earned its reputation as one of the premier Limousin events in the land. This sale's reputation is outstanding because the cattle selling in this sale each year are some of the best available in the Limousin business.

This year, selections for the sale were made from over thirty Limousin herds located in five different states in the midwest. The 69 head of cattle selling in this year's sale represent a top cut selection from each of those thirty herds which offered cattle from the sale.

I encourage you to attend this great sales event in Number One Limousin County — South Dakota. As you study the performance records, the pedigrees, and the individuals themselves, you will appreciate the outstanding bulls and females in this offering. You can buy with confidence, you are buying the best of the breed in the Red Carpet Sale.

Sincerely

Dean Jacobs

Cattle Management Consultants

The Limousin Cross Bull . . .

The Limousin crossbred bull is fast gaining the acceptance and favor of commercial cattlemen over the U.S. as an economical way of introducing desirable Limousin characteristics to the calf crop. Limousin-cross bulls will sire big, growthy calves that are born easy and exhibit the extra length and muscling of the Limousin along with outstanding carcass qualities.

THE LIMOUSIN CROSSBRED BULL — RUGGED, AGGRESSIVE, AND FERTILE . . . A WORKER! PERCENTAGE LIMOUSIN BULLS USED IN COMMERCIAL OPERATIONS OVER THE U.S. ARE REPORTED TO BE TIRELESS BREEDERS — NO HANGING OUT IN THE SHADE FOR THESE BULLS!

LIMOUSIN FEMALE

The Percentage Limousin Female Delivers

On the Ranch — After calving 100 head of 50% Limousin heifers, ranging in age from 19-24 months, the Smith Cattle Co., Golden, Colorado, had 100 live $\frac{3}{4}$ calves on the ground averaging 71.2 lbs. at birth, with eight assists in calving.

At the Research Station — Limousin cross females, calving as two-year-olds and three-year olds with their second calf, compared with Simmental and Charolais cross females had the (1) lightest birth weights, (2) least amount of difficulty calving, (3) quickest rebreeding and the highest conception rate in the U.S. Meat Animal Research Center in Clay Center, Nebraska.

In the Performance Record Books

	75% Females	75% Bulls
Total number	6,302	3,646
Birth Weight	71 lbs.	76 lbs.
Total Number	5,221	2,775
Adjusted 205-day weight	507 lbs.	546 lbs.
